**Notes to the Financial Statements
for the Year Ended 31 May 2020**

1. STATUTORY INFORMATION

A. & R. Mitchell & Co. (Construction) Limited is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Going concern

The directors review the company's cash flow requirements on a regular basis to ensure that it has sufficient funds to meet commitments as they fall due. Having carried out this review, and taking account of current and future resources the directors are satisfied that these are adequate and accordingly the accounts have been prepared on a going concern basis.

COVID-19

At the date of signing these financial statements the Coronavirus Pandemic is still having a Global impact. The company continues to operate in a restricted way during this period. Whilst the overall impact still remains uncertain for the UK economy the directors believe that with the steps which have been taken, ongoing Government support and the commitment of all staff and the loyalty of customers, that the business will be in a position to come through this period and continue in operation for the next year and beyond.

Turnover and revenue recognition

Sales comprise the fair value of the consideration received or receivable for the sale of goods and rendering of services in the ordinary course of the Company's activities. Sales are presented, net of value-added tax, rebates and discounts.

Revenue is recognised as earned when, and to the extent that, the company obtains the right to consideration in exchange for its performance under those contracts. It is measured at the fair value to the right of consideration, which represents amounts chargeable to clients, including recoverable expenses and disbursements, but excluding vat.

For incomplete contracts, an assessment is made of the extent to which revenue has been earned. This assessment takes into account the nature of the assignment, its stage of completion and relevant contract terms.

Unbilled revenue is included in debtors, under "amounts recoverable on contracts".

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 15% on reducing balance
Fixtures and fittings	- 15% on reducing balance
Motor vehicles	- 25% on reducing balance

Tangible fixed assets are stated at cost less depreciation.

Government grants

Grants are credited to deferred revenue. Grants towards capital expenditure are released to the profit and loss account over the expected useful life of the assets. Grants towards revenue expenditure are released to the profit and loss account as the related expenditure is incurred.

2. ACCOUNTING POLICIES - continued

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost consists of purchase invoice costs and, where appropriate, attributable overheads.

Work in progress is valued at the lower of cost and net realisable value. Costs consist of direct materials, labour, and attributable overheads. Net realisable value is based on estimate selling price, less further costs expected to be incurred to completion and disposal.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Cash and cash equivalents

Cash and cash equivalents comprise cash held by the company and short term bank deposits with an original maturity of three months or less from inception and are subject to insignificant risk of changes in value.

Impairment of fixed assets

At each reporting date, the company reviews the carrying amounts of its tangible fixed assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the amount of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

2. ACCOUNTING POLICIES - continued

Financial instruments

Financial assets and liabilities are recognised when the company becomes a party to the contractual provisions of the instrument and are classified in accordance with their underlying economic reality. The company has two main categories of financial instruments, which are loans and other receivables and other financial liabilities:

Loans and other receivables

Loans and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Upon recognition, these assets are measured at fair value less directly related transaction expenses. In successive periods these are measured at amortised cost, and any differences between acquisition cost and redemption value is accounted for over the borrowing period by using the effective interest method. If transaction costs are immaterial and the credit period is short, amortised cost is equal to the nominal value less any allowance for credit losses.

Other financial liabilities

Other financial liabilities are recognised initially at fair value, net of transaction costs incurred. In successive periods these are measured at amortised cost. Any differences between acquisition cost and redemption value is accounted for over the borrowing period by using the effective interest method. If transaction costs are immaterial and the credit period is short, amortised cost is equal to the nominal value.

Impairment of financial instruments

A provision for impairment is established when there is objective evidence that, as a result of one or more events that occurred after the initial recognition, the estimated future cash flows have been impacted.
