**31 MARCH 2013**

The directors acknowledge their responsibilities for:

**YEAR ENDED 31 MARCH 2013**

**1. ACCOUNTING POLICIES**

**Basis of accounting**

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

In respect of long-term contracts and contracts for on-going services, turnover represents the value of work done in the year, including estimates of amounts not invoiced. Turnover in respect of long-term contracts and contracts for on-going services is recognised by reference to the stage of completion.

**Fixed assets**

All fixed assets are initially recorded at cost.

**Depreciation**

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery	- 15% per annum reducing balance
Fixtures & Fittings	- 15% per annum reducing balance
Motor Vehicles	- 25% per annum reducing balance
Equipment	- 15% per annum reducing balance

Depreciation is not provided on freehold property. The directors are of the opinion that the property concerned is maintained to a high standard through a programme of refurbishment and maintenance. This is essential to ensure the continual upkeep of the property upon which the trading position of the company depends. As a consequence the life of the property and its residual value is such that any depreciation charge would be immaterial. An annual impairment review is carried out on this property.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Hire purchase agreements**

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account on a straight line basis.

**1. ACCOUNTING POLICIES** *(continued)*

**Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

**Deferred government grants**

Deferred government grants in respect of capital expenditure are treated as deferred income and are credited to the profit and loss account over the estimated useful life of the assets to which they relate.
