Notes to the Abbreviated Accounts

For the year ending 31 October 2016

1 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account on a straight line basis.

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions: Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold. Deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Fixed Assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant & Machinery	25% reducing balance
Fixtures & Fittings	4% straight line
Motor Vehicles	25% reducing balance
Equipment	25% straight line
Leasehold Property	4% straight line
