1. ACCOUNTING POLICIES

Basis of preparing the financial statements

During the year the company made a profit of £9,189 and at the balance sheet date its current liabilities exceeded its current assets by £100,310. After making enquiries the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, the financial statements have been prepared on a going concern basis.

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Land and buildings	- 2% on cost
Plant and machinery etc	- 25% on reducing balance and 10% on cost

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Government grants

Grants are credited to deferred revenue. Grants towards capital expenditure are released to the profit and loss account over the expected useful life of the assets. Grants towards revenue expenditure are released to the profit and loss account as the related expenditure is incurred.

PART 7 – INTEREST PAID AT A PERFORMANCE-RELATED RATE

This part should only be completed if the company has, at any time during the financial year to which this report relates, had a debt outstanding, or a debenture in issue on which a performance-related rate of interest was payable. A performance-related rate of interest is a rate which varies according to the level of the company's profits or turnover, or any item on its balance sheet. See further Chapter 6.3 of the Regulator's information and guidance notes, and regulation 21 of the Community Interest Company Regulations 2005 (this part is designed to monitor compliance with regulation 21 and Schedule 4 to the Regulations, which set out the interest capping regime and define its key terms).

Under the Regulations, the rate of performance-related interest payable is capped by reference to the Bank of England's base lending rate. However, this cap only applies in respect of agreements to pay a performance-related rate, which were entered into on or after the date on which the company became a community interest company.

In order to demonstrate compliance with the rules on performance-related rates of interest, please give the following details:

- (i) The rates of interest paid on any debt or debenture of the company on which a performance-related rate of interest was payable as calculated over a 12 month period ending with the most recent date on which interest became payable in respect of that debt or debenture during the financial year. **Please state 'none', if applicable and move to section 8**

None

- (ii) (If the interest cap applied to that debt or debenture) how any such rates of interest were calculated.

- (iii) Either the interest cap applicable to the debt or debenture concerned (with an explanation of how it has been calculated), or an explanation of why the cap does not apply to it (i.e. because the agreement was entered into before the company became a community interest company).
