NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2020

1. STATUTORY INFORMATION

Blackwatch Media Limited is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Going concern

The financial statements have not been prepared on the going concern basis, which assumes that the company will continue in operational existence for the foreseeable future. At 31 July 2020 the company's current liabilities, including £ 55,904 owed to the company director, exceeded its current assets by £195,299. In due course the director plans to wind-up the company. This will involve reclassifying long-term assets as current assets, writing down assets to their recoverable amounts and providing for the cost of dissolution. The financial statements do not include any of the adjustments that would arise from these measures.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life. Fixtures and fittings - 20% on cost

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Government grants

Grants received in respect of expenditure charged to the profit and loss account during the year have been included in profit and loss. The remainder are offset against the cost of the fixed assets to which they relate.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 1 (2019 - 1).
