**Notes to the Abbreviated Accounts
for the Year Ended 31 March 2013**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc - 10% on cost

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Deferred tax is provided at the average rates that are expected to apply when the timing differences reverse, based on current tax rates and laws.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset.

Valuation of properties

In accordance with the FRSSE, investment properties are revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve. No depreciation is provided in respect of freehold investment properties. Although the FRSSE would normally require the systematic annual depreciation of fixed assets, the directors believe that this policy of not providing depreciation is necessary in order for the accounts to give a true and fair view, since the current value of the investment properties and changes in that current value, are of more importance rather than a calculation of the systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.
