#### **DIRECTORS' ANNUAL REPORT**

FOR THE YEAR ENDED 31 MARCH 2012

The directors present their report together with the financial statements for the year ended 31 March 2010.

#### REFERENCE & ADMINISTRATIVE INFORMATION

Company Name Dynamic Woods - Scottish Wood Itd "Scottish Wood"

Company Number SC213622

Principal Address & Registered Office The Woods, Inzievar, Dunfermline, KY12 8HB

Directors

Stuart Dewar Ben Gever

Kenneth Munnoch

Peter Cummins 28th october 2011

Company Secretary Margaret Birley Bankers Co-operative Bank plc

#### STRUCTURE, GOVERNANCE & MANAGEMENT

Scottish Wood is a company limited by shares. All shares are owned by Dynamic Woods (charity number SC030663). Directors are appointed by the trustees of Dynamic Woods and meet at least annually. All surplus funds in Scottish Wood, beyond what is required to run the company, are donated to Dynamic Woods.

#### **Risk Management**

The company is almost wholly dependant on sales of timber for its income (there is some income from training, however without timber sales there would be no training places). The demand for local timber has been increasing, however this can not be considered a certainty and the following main risks have been identified and steps taken to reduce their detrimental impact on the business: -

- Drop in orders Scottish Wood has always worked on a positive cash flow and has
  reserve funds so that there would be time to implement further marketing should
  there be a drop off in orders. In an extreme case, staff numbers could be reduced.
- Inability to get round timber in quantities, and within certain timescales we normally carry large stocks of round timber, and we replenish stocks when suitable local timber is available
- Over reliance on key members of staff. Further staff training and the design & implementation of administration systems are helping to spread the knowledge base
- Over reliance on key bits of equipment backup provision is being built into the main processing elements in the yard.

#### **OBJECTIVES & ACTIVITIES**

The company's objectives are

- To promote the sustainable use of Scotland's woodland resources, especially timber processing and the development of timber products and waste wood minimisation.
- To donate surplus funds (and time) to further Dynamic Woods objectives:
   Promote the maintenance, conservation, reclamation and management, within and around Fife always for the public benefit, of predominately native flora and fauna by the carrying out of woodland and/or countryside management programmes for environmental, educational and/or training

## **DIRECTORS' ANNUAL REPORT**FOR THE YEAR ENDED 31 MARCH 2012

#### **ACHIEVEMENTS & PERFORMANCE**

Scottish Wood has had a difficult year. There was a considerable drop in sales which meant that Scottish Wood was for a while making a loss. A difficult decision was made to go onto short time at with all staff members loosing a day. However, orders picked up soon after going onto short time and staff were reinstated to full hours. At the end of the year Scottish Wood broke even

#### Sales

- Lower than last year £257,449 (last year £287,636)
- The main type of order lost was the large (over £10,000) orders these were often linked to public works and have been badly hit by the recession.
- The range of customers continues to be large which has helped give stable base to weather the changes in the economic climate.

#### Staff, Training & Development

- We have continued to develop staff and systems to counteract the risks identified last year:
  - Over reliance on key staff
  - Training for all staff
  - Delegating responsibilities
  - Improved workplace efficiency (maintenance, health and safety, structural improvements)

The knock on effects have been positive, staff feel more like a team, less absences as staff know they are important team members. Systems developed to help remove workload from Jim. Framework developed to help us implement these techniques in different processes in the future.

#### **Planned Expansion**

Although Scottish Wood has no desire to grow bigger we recognise that there is a gap in the market that requires a yard that is larger than the micro enterprise level at which most local hardwood sawmills operate. The planned expansion of the yard helps to fill this gap and will also help provide services, training and mentoring to others in the industry. Despite the turndown in sales the planned expansion has continued, so that when the sales increase we are in a stronger position to deal with them.

- Doubling sawing capacity (beginning 2010) a new saw has been bought to run alongside the existing Wood-Mizer. This saw will help turnaround large orders quickly; enable us to saw timber for others; allow us to train more of our staff and offer external training for people interested in setting up in the industry.
- Standardisation of some products (ongoing). Scottish Wood currently has very few standard product. This has knock on effects from quoting to keeping stock, however being able to sell customised orders is important to us. We are therefore beginning to develop standardised products in some lines (cladding, decking, flooring) while still enabling the customer to go for customised orders if they wish.
- Reviewing systems, work flow and responsibilities (ongoing). See training and development
- Doubling molding capacity the successful SRDP application will enable us to double our molding capacity. Implemented in 2011.
- Increased kiln capacity the large kiln is working very successfully, however there is more demand for smaller loads for specific purposes or for more

sensitive timber and therefore it is planned to reinstate some of the smaller kilns over the next two years.

 Increased capacity of staff – extensive training of existing staff to enable them to take on more responsibility and work flexibly.

# Support for the Industry ASHS

This year Scottish Wood retired as the chair of ASHS. During our period as chair we have concentrated on making ASHS more sustainable both in its funding and in how it works.

- Sawmill visits each ASHS meeting is now open to all members and is being held in a different sawmill each time. This enables all members to learn from each other, share best practice and to feel that they have an active part to play in the organisation. This has proved very successful and is particularly popular with new entrants and has generated a new enthusiasm for tackling some of the issues in the industry.
- A new committee structure including a vice chair has been drawn up that will
  enable work and projects to flow better when the chair changes. This has
  encouraged members to stand for positions knowing that they will have better
  support.
- Involvement of ASHS members in its day to day running to avoid the over reliance on grants from Scottish Enterprise and the Forestry Commission. Members are now taking on
  - o Membership secretary
  - o Organising shows and events
  - Writing publicity
  - o Treasury and reporting

These all used to be carried out by the co-ordinator who was paid for by a grant. However this grant has been cut by 50% in 2011

 Development of materials and training for farmers that can be run in partnership with the Forestry Commission and bring in income for ASHS members and ASHS itself

#### **Colleges and Schools**

 Scottish Wood actively encourages schools and colleges that are involved in designing with timber to come and visit the yard and find out more. Several schools, colleges and groups have visited during the year

Timber grants were also offered to all of West Fife's secondary schools. The offer was taken up by

- Dunfermline High
- Queen Anne
- Woodmill

#### DYNAMIC WOODS - SCOTTISH WOOD LTD

**DIRECTORS' ANNUAL REPORT**FOR THE YEAR ENDED 31 MARCH 2012

#### SWW (Scottish Working Woods Label)

Scottish Wood continues to provide administrative support for the Scottish Working Woods label.

#### Raising Awareness/Lobbying for sustainable Forest Practices

Scottish Wood is a key member of the Forest Policy Group, which raises issues about more sustainable forest practices. We met this year with the head of the Forestry

Commission to discuss several issues including

- Larch planting of new larch is very low while at the same time demand for the timber is growing. There has been feedback at different levels that this message has been filtering down through the Forestry Commission as an issue.
- Obtaining timber in small enough parcels for small and micro enterprises to purchase and highlighting the good work being done by one of the Forest Enterprise divisions in Argyll. There are now to be Niche Marketing Officers in all the Forest Enterprise divisions and ASHS have been asked to feedback information about how these are working.
- Training for farmers, to encourage better use and management of farm woodlands
   several training events have now been held

#### **FINANCIAL REVIEW**

#### **Summary**

Net profit for the year before tax and donations was £391 (££28,692 in 2011). No funds (£10,000 in 2011) were donated to Dynamic Woods, leaving a net profit after tax of £312 (£14,766 in 2011). This was kept in Scottish Wood to ensure there are funds to meet the planned expansion of the yard and to cushion any adverse effects from the global economic downturn.

#### **FUTURE PLANS**

Scottish Wood plans to continue trading for the foreseeable future. The planned expansion has already started and is detailed on page 4.

Stuart Dewar Director

For the year ending 31 March 2012 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- the members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476,
- the directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts
- these accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

The notes on pages 9 to 10 form an integral part of these accounts.

Approved by the directors on 18/12/12 and signed on their behalf by:

Stuart Dewar Director

# DYNAMIC WOODS - SCOTTISHWOOD LTD NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2012
