NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 MARCH 2010

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with applicable accounting standards.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is small.

Turnover

The turnover shown in the profit and loss account represents amounts receivable during the year in respect of insurance activities.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more or a right to pay less tax in the future have occurred by the balance sheet date with certain limited exceptions.

Deferred tax is calculated on an undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Investments

Investments are included at cost less amounts written off.

Consolidation

The financial statements contain information about Grant Management and Interiors Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt from the requirement to prepare consolidated financial statements as it is part of a larger group which prepares consolidated financial statements.
