(a) Dormant status

The company was dormant (within the meaning of Section 480 of the Companies Act 2006) throughout the year ended 31 August 2014. During the period the company received no income and incurred no expenditure and therefore made neither a profit nor a loss.

(b) Basis of accounting

The financial statements contain information about UPP (Miller Street A) Limited as an individual company and do not contain consolidated financial information as the parent of a group. (d) Taxation

(i) Current tax

The charge for current taxation for the year is based on the result for the year, adjusted for disallowable items.

(ii) Deferred tax

Full provision has been made for deferred taxation in respect of timing differences that have originated, but not reversed at the balance sheet date where an event has occurred that results in an obligation to pay more or less tax in the future by the balance sheet date except that:

- Provision is made for gains on disposal of assets that have been rolled over into replacement assets only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned.
- Provision is not made for the remittance of a subsidiary, associate or joint venture's earnings that would cause tax to be payable where no commitment has been made to the remittance of the earnings.
- Deferred tax assets are recognised to the extent that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the years in which the timing differences reverse, based on the tax rates enacted at the balance sheet date. Group relief is only accounted for to the extent that a formal policy is in place at the year / period end. Where no policy is in place, current and deferred tax is measured before benefits which may arise from a formal group relief policy.
