For the financial year ended 30 November 2009, the company was entitled to exemption from audit under section 477(1) of the Companies Act 2006; and no notice has been deposited under section 476(1) requesting an audit. The director acknowledges his responsibilities for ensuring that the company keeps accounting records which comply with section 386 of the Act and preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the year and of its profit or loss for the financial year in accordance with the requirements of section 394 and which otherwise comply with the Companies Act 2006, so far as applicable to the company.

The abbreviated accounts have been prepared in accordance with the special provisions of the Companies Act 2006 relating to companies subject to the small companies regime.

These accounts were approved by the Director on 21 January 2010

Kenneth Comrie

L. H. Comin

Director

AAK Haulage Ltd

Notes to the abbreviated accounts for the Year Ended 30 November 2009

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Fixtures, fittings and equipment

20-50% reducing balance p.a.

Vehicles

20-50% reducing balance p.a.

Deferred taxation

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by FRSSE.

Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

Hire purchase and finance lease contracts

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over their useful lives. The capital elements of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract.
