# **Directors' Responsibilities**

Company Law requires the directors to prepare the financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profits or loss of the company for that year. In preparing these, the directors are required to:

- Select suitable accounting policies and apply them consistently
- Make judgements and estimates that are reasonable and prudent
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business,

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

# **Accounting Policies**

These financial statements for the year ended 31 December 2008 comprise the profit and loss account, the balance sheet and related notes. These financial statements have been prepared under the historical cost convention and the accounting policies set out therein.

In our opinion the financial statements give a true and fair view of the state of the company's affairs as at the 31 December 2008

This report was approved by the Board on 25 September 2009 and signed on its behalf by
