Notes to the Financial Statements
for the Year Ended 29 February 2020

1. **STATUTORY INFORMATION**

Axis Transport Services Limited is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. **STATEMENT OF COMPLIANCE**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. There were no material departures from that standard.

3. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention.

Turnover

Turnover is derived from haulage broker services supplied by the company.

Turnover is measured at the fair value of haulage broker services supplied, net of discounts and excluding value added tax, and is recognised at the point that the company obtains the right to consideration.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc - 15% on cost

Tangible fixed assets held for the companies own use are stated at cost less accumulated depreciation and accumulated impairment loss.

At each balance sheet date, the company reviews the carrying amounts of its tangible fixed assets to determine whether there is any indication that any items have suffered an impairment loss. If any such indication exists, the recoverable amount of an asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of the asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Expenditure of £500 or more on individual tangible fixed assets is capitalised at cost. Expenditure on assets below this threshold is charged directly to the profit and loss account in the period it is incurred

Stocks and work in progress

Stocks, being work in progress only, are stated at the lower of cost and net realisable value. Costs comprise direct material and labour costs, plus attributable overheads based on a normal level of activity. Net realisable value is based on the estimated selling price less any estimated completion or selling costs.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Notes to the Financial Statements - continued
for the Year Ended 29 February 2020

3. **ACCOUNTING POLICIES - continued**

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.
