The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 28 February 2010.

The members have not required the company to obtain an audit of its financial statements for the year ended 28 February 2010 in accordance with Section 476 of the Companies Act 2006.

The director acknowledges his responsibilities for:

- ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.

### **Notes to the Abbreviated Accounts for the Year Ended 28 February 2010**

#### **1. ACCOUNTING POLICIES**

##### **Accounting convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

##### **Turnover & revenue recognition**

Turnover represents net rental income, excluding value added tax.

Rent is recognised in accordance with the lease agreement. Where there are lease incentives such as rent free periods the rent relating to these incentives is accrued and subsequently released of the full period of the lease agreement. Property sales are recognised with reference to completion date.

##### **Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

##### **Investment properties**

Investment properties are shown at their open market value. The surplus or deficit arising from the revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with FRSSE which, unlike the Companies Act 2006, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.
