NOTES TO THE ABBREVIATED ACCOUNTS
For The Year Ended 31 August 2014

1. ACCOUNTING POLICIES**Accounting convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents rental income from property letting.

Tangible fixed assets

Depreciation is provided at the following rates in order to write off the cost less estimated residual value of each asset over its estimated useful life:

Investment properties	- not provided
Furniture and furnishings	- 25% on cost
Computer equipment	- 25% on cost

In accordance with the Financial Reporting Standard for Smaller Entities ("FRSSE") (effective April 2008): (i) investment properties are valued annually and the aggregate surplus or deficit is transferred to a revaluation reserve; and (ii) no depreciation or amortisation is provided in respect of investment properties. The requirement of the Companies Act 2006 is to depreciate all properties, but that requirement conflicts with the generally accepted accounting principles set out in the FRSSE (effective April 2008). The directors consider that, as these properties are not held for consumption but for investment, to depreciate them would not give a true and fair view and that it is therefore necessary to adopt the FRSSE (effective April 2008) in order to give a true and fair view. If this departure from the Act had not been made, the profit for the financial year would have been decreased by depreciation. However, the amount of the depreciation cannot reasonably be quantified, because depreciation is only one of many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.
