Notes to the Abbreviated Accounts

For the year ending 31 October 2011

1 **Accounting policies**

Basis of preparing the financial statements

The financial statements have been prepared on the going concern basis which assumes that the company will continue in operational existence for the foreseeable future. As at balance sheet date the company's liabilities exceeded its assets by £9,526 (2010: £5,081). The company is thus dependent on the continuing financial support of its director and other creditors and meets its day to day working capital requirements. The director is confident of this continuing support and of the company's long term trading prospects and on this basis consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from withdrawal of financial support.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures and fittings	20% on a reducing balance basis
Computer equipment	33% on a straight line basis
