Notes to the Abbreviated Accounts

For the year ending 31 March 2010

1 Accounting policies**Basis of preparing the financial statements**

The financial statements have been prepared on the going concern basis which assumes that the company will continue in operational existence for the foreseeable future. At 31 March 2010 the company's current liabilities exceeded its current assets by £8,884 (2009: £6,026). The company is thus dependent on the continuing financial support of its creditors. The directors are confident of this continuing support and of the company's long term trading prospects and on this basis considers it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from withdrawal of financial support.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.
