- For the year ending 30 June 2014 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.
- The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.
- These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Board on 30 March 2015

And signed on their behalf by:
Roderick McLellan, Director

Notes to the Abbreviated Accounts for the period ended 30 June 2014

1 Accounting Policies

Basis of measurement and preparation of accounts
The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy
The company is not VAT registered therefore turnover represents the total invoice value of sales made during the year and derives from the provision of goods falling within the company's ordinary activities.

Tangible assets depreciation policy
Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life as follows:

Short Leasehold properties - Straight line over the length of the lease
Plant
And machinery - 20% reducing balance
Computer equipment - 3 years straight

Other accounting policies
Leasing and Hire Purchase Commitments

Assets obtained under hire purchase contracts and leases are capitalised as tangible assets and depreciated over the shorter term of the lease term and their useful lives. Obligations under such agreements are included net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Rental payable under operating leases are charged against income on a straight line basis over the lease term

Stock

Stock is valued at the lower of cost and net realisable value.

Deferred Tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement

assets, only to that extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where , on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacements are sold;

Provision is made for deferred tax that would arise on the remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

2 Tangible fixed assets

	£
Cost	
At 1 July 2013	20,445
