**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2018**

---

**1. General information**

Greenbelt Property Limited is a company limited by shares and registered in Scotland. The Company's registered office and principal place of business is McCafferty House, 99 Firhill Road, Glasgow, G20 7BE.

**2. Accounting policies**

**2.1 Basis of preparation of financial statements**

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies (see note 3).

The financial statements are prepared in sterling, which is the functional currency of the Company. Monetary amounts in these financial statements are rounded to the nearest £.

The following principal accounting policies have been applied;

**2.2 Going concern**

At the reporting date the Company had net liabilities of £309,477 (2017 - £307,482). The Company is dependent on the continuing financial support of other group companies in order to continue trading and meet its obligations as they fall due. The Directors have confirmed the ongoing financial support of the parent company and, accordingly, the financial statements have been prepared on the going concern basis and do not include any adjustments that would arise from the withdrawal of this support.

**2. Accounting policies (continued)**

**2.3 Taxation**

Tax is recognised in the Statement of Income and Retained Earnings, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Statement of Financial Position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The Company has a deferred tax asset relating to tax losses of approximately £44,000 (2017 - £44,000), calculated based on a tax rate of 17% (2017 - 17%). The deferred tax asset is not included in the financial statements as there is uncertainty over its immediate recoverability.

**2.4 Creditors**

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

**2.5 Financial instruments**

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in non-puttable ordinary shares.

FOR THE YEAR ENDED 31 MARCH 2018**

**3. Judgements in applying accounting policies and key sources of estimation uncertainty**

In the application of the Company's accounting policies, which are described in note 2, the Directors are required to make judgements, estimates and assumptions about the carrying amount of the assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to account for estimates are recognised in the period in which the estimate is revised, if the revisions affects only that period, or in the period of revision and future periods if the revision affects both current and future periods

The calculation of accruals and provisions contains an inherent level of subjectivity. The Directors consider that the current level of accruals provisions represents the best estimate of the likely exposure.

**4. Employees**

The Company had no employees in the current or prior year, other than the Directors.

**5. Taxation**

**Factors affecting tax charge for the year**

There is no tax charge for the current or prior year due to losses incurred.

**Factors that may affect future tax charges**

Losses carried forward may affect future tax charges.
