Abbreviated Balance Sheet at 30 April 2015

..... continued

For the year ending 30 April 2015 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the Financial Reporting Standard for Smaller Entities (effective 2008).

Approved by the Board on 1 December 2015 and signed on its behalf by:

THJ Rae
Director

The notes on pages 4 to 7 form an integral part of these financial statements.

Johnstone Rae Limited
Notes to the Abbreviated Accounts for the Year Ended 30 April 2015

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

The company has net current liabilities at 30 April 2015 and meets its day to day working capital requirements through the financial support provided by its directors by way of short term loans. On the basis of this support, the directors consider it appropriate to prepare the financial statements on the going concern basis.

However, should the company not have the support of its directors, and therefore be unable to continue trading, adjustments would have to be made to reduce the value of assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify fixed assets and long term liabilities as current assets and current liabilities.

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Government grants

Government grants such as the single farm payment are included in the profit and loss account when all the necessary conditions for receipt have been met.

Milk quota amortisation

Purchased milk quota is being amortised on a straight line basis over its useful economic life, which is expected to end on 31 March 2015. In addition, an annual impairment review is being performed.

Single Farm Payment

The amount paid in connection with the purchase of the single farm payment entitlement was amortised over the useful economic life of that entitlement, and has now been fully amortised.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Short leasehold land and buildings	10% reducing balance
Plant and machinery	15% reducing balance and 25% reducing balance
Office equipment	33% straight line

Short leasehold land and buildings relate to tenants improvements on land leased by the company from the directors. As the long term intention is for the farming operation to continue, it is deemed a true and fair view to depreciate the assets at 10% reducing balance over their useful economic life, and not the duration of the lease.

Stocks

Trading stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. The cost of livestock is determined on an individual basis, and represents the purchase cost plus any additional costs of rearing the animal. Net realisable value is based on selling price less anticipated selling costs.

Fixed asset investments

Fixed asset investments are stated at historical cost less provision for any diminution in value.

Deferred tax

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by the FRSSE.

Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

Foreign currency

Transactions in foreign currencies are recorded at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the closing rates at the balance sheet date. All exchange differences are included in the profit and loss account.

Hire purchase and leasing

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term.

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital elements of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract and represent a constant proportion of the balance of capital repayments outstanding.

Pensions

The company operates a defined contribution pension scheme. Contributions are recognised in the profit and loss account in the period in which they become payable in accordance with the rules of the scheme.
