NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax, together with the appropriate proportion of Single Farm Payment and other subsidies.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery etc - 33% on cost, 25% on reducing balance and 10% on cost

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Full provision has been made for deferred tax in respect of timing differences that have originated but not reversed at the balance sheet date, at rates expected to apply when they crystallise, based on current tax rates and law. Deferred tax assets are recognised to the extent that their recoverability is more likely than not. Deferred tax assets and liabilities are not discounted.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Government and other grants

Grants are recognised in the profit and loss account so as to match them with the expenditure towards which they are intended to contribute. Where grants relate to expenditure on fixed assets, they are treated as deferred credits and credited to the profit and loss account over the estimated useful life of the relevant fixed assets.
