## Notes to the Abbreviated Accounts

For the year ending 28 February 2010

**1 Accounting policies**

**Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Operating lease agreements**

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

**Fixed Assets**

All fixed assets are initially recorded at cost.

**Financial Instruments**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities. Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability. Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

**Depreciation**

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures & Fittings                      0% Method for Fixtures & fittings

**2 Fixed Assets**

		<b>Tangible Assets</b>	<b>Total</b>
<b>Cost or valuation</b>		<b>£</b>	<b>£</b>
Additions	-	<u>458</u>	<u>458</u>
