ACCOUNTING POLICIES

BASIS OF PREPARATION

The financial statements have been prepared on the historical cost basis and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

TURNOVER

Turnover represents amounts invoiced during the year, exclusive of Value Added Tax and trade discounts. Turnover is recognised when the seller obtains the right to consideration in exchange for its performance, usually on dispatch of the goods.

CURRENT TAX

Current tax is recognised in the profit and loss account, except to the extent that it is attributable to a gain or loss that has been recognised directly in the statement of total recognised gains or losses. In this case, tax is recognised in this statement. Current tax is measured at the amounts of tax expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

TANGIBLE ASSETS

Tangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated depreciation and accumulated impairment losses. Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant and machinery	20% straight line
Motor vehicles	20% straight line

FINANCIAL INSTRUMENTS

Financial instruments are classified and accounted for according to the substance of contractual arrangements, as either financial assets, financial liabilities or equity instruments.

OPERATING LEASES

Leases are classified as operating leases where substantially all the benefits of ownerships remain with the lessor. Rentals payable under operating leases are charged to the profit and loss account on a straight-line basis over the lease term.
