# Notes to the Abbreviated Accounts for the Year Ended 30 June 2015

#### 1. ACCOUNTING POLICIES

#### Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

#### **Turnover**

Turnover represents net invoiced sales of goods and services, excluding value added tax.

#### Intangible assets

Intangible assets are in respect of patents and licences which are being written off over 10 years on a straight line basis.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Improvements to property - 2% on cost Plant and machinery - 10% on cost

Fixtures and fittings - 15% on reducing balance Motor vehicles - 25% on reducing balance

Computer equipment - 33% on cost

Fixed assets are stated at cost, being purchase price, less accumulated depreciation.

#### Stocks and work in progress

Stocks and work in progress are valued at the lower or cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

#### Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

#### **Deferred government grants**

Deferred government grants in respect of capital expenditure are treated as deferred income and are credited to the profit and loss account over the estimated useful life of the assets to which they relate.
