To Our Readers

Strategic Highlights

A core principle behind the creation of the company was the need to provide documentary evidence that fishers potentially sourcing to restaurants and retailers were endeavouring to fish sustainably.

Last year we reported that, following successful pilot work, our Fishface technical partner Modus Vivendi had an offer of funding a scaled up trial of on-board video documentation of fisheries. Unfortunately, having consulted with our fishing industry stakeholders, we were not then confident that there would be sufficiently close to 10 participant vessels on any one day throughout the year long trial during financial year 2018-19. Without this, demonstrating the scalability and reliability of the technology cannot be usefully advanced.

Unfortunately, during financial year 2019-20, the most pressing issue for our inshore fishing industry partners became the future fishing entitlements for the inshore fleet after the UK's exit from the European Union. This meant that there was limited attention and appetite among inshore fishers, and their leaders, at this time for the additional burden (it could be seen) of pursuing fully documented fisheries, so we continued to put on hold the plan to scale up the project.

We and Modus Vivendi continue to look for opportunities to carry forward this work during 2019-20, once these wider uncertainties have been resolved

Financial Highlights

The Directors made no claims on the company for their work and costs, and all physical assets (computers etc) were also used without cost to the company. No grants or other sources of income were made in this year. Therefore no bank accounts were set up; there is no cash in hand associated with the company, nor physical assets.

Operating Highlights

Pisces Restaurants, Fishers and Retailers CIC remains on hold until we had a reliable way of documenting the sustainability of fisheries that meet the current demand for reliably fully documented fisheries. As a CIC, the company has produced a CIC 34 Annual Report, of its activities for 2019-20.

Looking Ahead

A decision will again be made, during 2020-21, regarding whether it is sensible to continue Pisces Restaurants, Fishers and Retailers CIC, and if so reconsider how best to provide the documentary evidence to restaurants and retailers once the technology is sufficiently mature.

THEORY OF THE EARTH

The theory of the earth is a branch of geology which deals with the origin and development of the earth and its various parts.

THE EARTH AND ITS PARTS

The earth is a sphere, and its surface is divided into two main parts, the land and the water. The land is divided into continents and islands, and the water is divided into oceans and seas.

The earth is also divided into three main layers, the crust, the mantle, and the core.

**PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND
IMPACT**

Over 2019-20, the C.I.C. continued ready to support Project Fishface. Fishface aims to develop a financially affordable and technically credible way of providing Fully Documented Fisheries to small inshore day boats. If Fishface is successful, the way will then be open for Pisces Restaurants, Fishers and Retailers C.I.C. to credibly document the sustainability of fisheries, and support the supply of fish.

In FY 2019-20, the attention of UK inshore fishers was firmly focused on the uncertainty concerning the future of fisheries, specifically negotiating regulations and entitlements post Brexit. The opportunities and appetite for pursuing initiatives such as fully documented fisheries appeared limited. As described in last year's CIC-34, Pisces had not then pursued an offer of funding, following a successful pilot, because we were not confident that we could get sufficient uptake by fishers. We did not further this in 2019-20 because, for the reasons just explained, conditions did not appear to have become more favourable.

We are reassess the climate for participation during 2020-21 and again will make a decision regarding whether it is sensible to continue Pisces Restaurants, Fishers and Retailers C.I.C.

PART 2 – CONSULTATION WITH STAKEHOLDERS – Please indicate who the company's stakeholders are; how the stakeholders have been consulted and what action, if any, has the company taken in response to feedback from its consultations? If there has been no consultation, this should be made clear.

The companies stakeholders are inshore fishers, and restaurants and retailers sourcing the fish that they catch. In 2019-20, in support of Project Fishface, we consulted with the same bodies as in previous years, most actively with LIFE (Low Impact Fishers of Europe), and with the fish merchant 'Sole of Discretion'.

The feedback from the fishing industry stakeholders was that 2019-20 would continue to be difficult for recruiting fishers to fully document inshore fishing boats with on-board video. The intent was that if fishers circumstances were more settled in 2019-20 it could then be possible to recruit sufficient fishers for upscaling the work done on the successful pilots.
